

VEDAA-PRO

A Unique multi strain Probiotic with Enzymes

When pond water contains excess suspended organic matters and built up waste the natural ecosystem of the pond is destroyed. As a result, toxic and harmful gases such as ammonia, nitrite and hydrogen sulfide are accumulated. This causes the culture animals to become weak and create stress for aquatic animals and makes weak immune system. **Vedaa-Pro** has launched with a unique multi strain Probiotic with Enzymes to absorb and remove toxic gases, generate enzyme degrading organic matter, reduce the pollution and save the cost for customers.

Vedaa-Pro offers the natural treatment need to restore the immunity of the shrimp. Vedaa-Pro can help clear water free from toxic materials, effectively encourage the natural purification process and also help in balancing ecosystem in the pond.

KEY BENEFITS

- It provides better water quality.
- Effective reduction of the accumulation of organic matter in the pond sediments.
- Quick elimination of toxic gases such as ammonia, nitrite and hydrogen sulfide etc.
- Optimizes the dissolved oxygen level and increases oxygen transfer into the soil.
- Use enzymes to accelerate the pond atmosphere by reducing sludge accumulation and anaerobic conditions.
- Improves useful plankton and gives natural bloom which help to give fast growth for Fish / Prawn

COMPOSITION

VEDAA-PRO is a highly specialized biological strains of bacillus species, denitrifying bacteria and other beneficial bacteria with enzymes.

STORAGE CONDITIONS

Store in cool, dry places for optimal shelf life. Away from the direct sunlight.

DIRECTION OF USE

Spread the solution around the entire surface of the pond. The product can perform efficiently under different salinities, temperatures, pH and other environmental conditions.

Dosage: Before stocking 1 kg per acre. Table shows periodic dosage per acre.

Table shows periodic dosage per acre

Schedules	Dosage Per Acre	Schedules	Dosage Per Acre
01-15 Days	500 gms	60-75 Days	1 Kg
15-30 Days	500 gms	75-90 Days	500 gms
30-45 Days	500 gms	90-105 Days	500 gms
45-60 Days	750 gms	105-120 Days	1 Kg
